This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The Europeans or White Persons numbered 579,741, and Other than European 1,830,063. The rate of increase of population is shown in the following comparative Table, for the Colony as constituted and bounded in 1891, *i.e.*, for Sections I. and II., including the township of Port St. John's (407 persons—181 white and 226 other).

Pondoland (excluding the township of Port St. John's) and Bechuanaland—the Territories annexed since 1891—show a combined total of 286,822 persons. The population of Pondoland was estimated to be 800 Europeans and 165,280 Other in 1896; it is now returned at 1,113 Europeans and 201,644 Other. In 1891, there were in Bechuanaland 5,211 Europeans and 67,525 Other, as against 9,368 and 75,104 respectively in April, 1904.

Estimated Population, 1907.—The number of persons in the Cape Colony on the 31st December, 1907, is estimated at 2,507,500, made up as follows :—European or White, 610,680; Other than European or White, 1,896,820.

Immigration and Emigration (p. 37).—From returns compiled by the South African Customs Statistical Bureau and the Railway Department, it appears that 127,100 persons entered the Colony during 1907 (29,767 by Sea, and 97,333 by Rail), while 149,752 left the Colony during the same period (39,550 by Sea, and 110,202 by Rail)—the excess of Departures over Arrivals being 22,652.

Area.—The Area of the Colony with its annexed territories, including Pondoland and British Bechuanaland, is *now* set down as 276,995 square miles.

Electors.—The Returns in the present volume have been amplified to show, in addition to the particulars given in previous issues, the number of European and Other than European Voters, and, as regards the Assembly Elections, the total number and the proportion per cent. of Voters who voted. Further, Returns for British South Africa are shown on pages 182 and 183. The Legislative Council *General* Election for 1908 was carried out on an electoral roll of 152,121 voters—an *increase* of 16,944 on the number on the lists in 1903. In the electoral provinces of Griqualand West (11,619 voters) and British Bechuanaland (2,146 voters), there were no contests. For the remaining 7 provinces 324,444 votes were actually recorded out of an assumed total of 498,295 available. The Assembly *General* Election of 1908 was also conducted on the same roll. In 14 divisions there were no pollings, in the remaining divisions 206,845 votes were actually given out of a calculated available total of 355,493—74,192 out of a total of 109,933 registered voters (67·49 per cent.) having voted. From Returns Nos. 14 and 15 (page 9) it will be seen that in 1903 there were 114,450 European Voters on the Roll, 119,906 in 1905 and 129,337 in 1907—the total increase on the 1903 Registration being thus 14,887, or 13·0 per cent. For Other than Europeans the figures are 20,727 in 1903, 23,033 in 1905, and 22,784 in 1907—the 1907 Roll showing a decrease of 249 on the 1905 Registration, and an increase of 2,057, or 9·1 per cent, on that for 1903.

The present conditions of the *Franchise* under Act 9 of 1892 may be briefly described as follows :—(1) Every male person fully 21 years of age, who occupied for 12 months preceding registration, house or other building worth £75, or (2) Every male person, fully 21 years of age, who for 12 months preceding registration, had been in receipt of salary or wages of £50 p.a., provided such male person can sign his name and write his address and occupation, shall be capable of being registered as a Parliamentary Voter; but the provisions of Act 9 of 1892 are *not* applicable to any person who on the 16th August, 1892, was registered as a Voter in any fiscal division as long as he continues to reside in division where he was registered, and registered holders for six months preceding day for registration of Voters, of licences to dig or search for diamonds in divisions of Kimberley, Barkly West, Herbert and Hay shall be entitled to be registered as Parliamentary Voters.

NATURALIZATION.

Naturalization.—The law dealing with naturalization of Aliens as British subjects is contained in Act No. 2 of 1883, as amended by No. 35 of 1889. The Governor is empowered thereby to grant, to persons fulfilling certain requirements, Letters of Naturalization, *if he think fit*, and in the exercise of this discretion no applications are entertained from minors, or from persons who cannot give a definite assurance that they intend, when naturalized, to reside permanently in the Colony. In regard to the residential qualification applicants must have resided in this Colony for a period of 5 years, or at least 12 months, provided that they have resided in other parts of His Majesty's Dominions for periods which, together with such period of 12 months, amount in all to a period of 5 years acquired during the period of 10 years immediately preceding the date of the application. (Vide Govt. Notice No. 765 of the 25th July, 1905, and Govt. Notice No. 853 of 1905—republished 8th July, 1907). The Fee for Letters of Naturalization is two shillings and sixpence.

The number of persons naturalized during the years 1898 to 1907 is shown in the following Table :—

VITAL, METEOROLOGICAL, HOSPITALS AND CHARITABLE INSTITUTIONS (pp. 15-54).

Marriages.—The total number of marriages solemnised during 1907 was 10,554, a decrease of 498 as compared with the previous year.

On reference to the Return published on page 16 it will be observed that, with the exception of the year 1899, there has been a gradual increase in the number of Marriages solemnised in this Colony since 1892 up to and including the year 1903. The figures for 1904, however, show a decrease of 193 as compared with those for the year 1903; and in 1905 there was a further falling off to the extent of 1,484.

The Returns for 1907 show that Friday was again regarded as the unpropitious day for solemnisation of the marriage ceremony, as out of 10,554 Marriages 298 (compared with 269 out of 11,052 in 1906) took place on that day.

Tuesdays were most frequently selected, 4,101 or 38·86 per cent. occurring then (3,906 or 35·34 per cent. in 1906 and 3,696 or 35·1 per cent. in 1905); Mondays coming next with 2,955 or 27·99 per cent. (3,353 or 30·34 per cent. in 1906 and 3,135 or 29·74 per cent. in 1905); while 1,609 happened on Wednesdays, 659 on Thursdays, 439 on Saturdays, and 493 on Sundays. The highest number, namely 132, solemnised on any one day is recorded against Tuesday, 1st January, with 116 on Tuesday, 31st December.

The largest number in a full week was 277 in the seven days ended 6th April, and the lowest 153 in February. In 9,561 cases banns were called by Ministers of Religion or by Resident Magistrates, the remaining instances, 993, being by special licence. The number of Marriages before Protestant Clergymen (including Salvation Army Officers), was 8,964, Roman Catholic 323, Orthodox Greek Church 3, and Jewish 73, while 1,191 or 11·28 per cent. (compared with 926 or 8·38 per cent. in 1906, 1,046 or 9·9 per cent. in 1905, 1,108 or 9·2 per cent. in 1904, and 1,334 or 10·9 per cent. in 1903) were dealt with by Magistrates, under the provisions of Act 16 of 1860. The majority of the parties wedded belonged to the Dutch Reformed Church, the number of Marriages being 2,791 (compared with 3,083 in 1906 and 2,783 in 1905). The Church of England follows next with 1,982, which was 190 in advance of the Wesleyan Church, while Congregational, including Independent and London Missionary Society, show 908 Marriages. In point of Education 25·99 per cent. of the wives and 26·92 per cent. of the husbands could not write their names, compared with 27·07 and 27·32 in 1906 and 28·12 and 28·51 in 1905. It appears that in 749 cases widowers married spinsters, in 274 bachelors married widows, and in 284 widowers married widows. There were 31 cases relating to divorced wives or husbands.

Births, 1907.—The total number of Births registered during 1907, the thirteenth year wherein a general compulsory system of registration was in operation, was (*a*) 60,414, (compared with 57,864 in 1906) made up as follows, viz. :—European or White Males 9,951 and 9,453 Females; Fingo, Kaffir and Bechuana Males 10,928 and 10,679 Females; Mixed and Other Males 9,856 and 9,547 Females.

The figures for the Colony Proper, *i.e. excluding* Bechuanaland and the Native Territories, total 50,857, comprising 9,507 Male and 8,958 Female Europeans, and 16,400 Males and 15,992 Females, "All Others." Of the full number of Births 25,068 may be classed as Urban and 35,346 Rural. The corresponding figures for the Colony Proper are 24,332 and 26,525. Attending simply to the results derived from the Colony Proper it is found that European or White Births numbered 5,320 Male and 5,023 Female Urban, and 4,187 Male and 3,935 Female Rural; similarly for "Other than Europeans or Whites," the figures stand as follows, viz. :—7,013 Males, 6,976 Females; 9,387 Males, 9,016 Females. Taking the population of the Colony Proper at 1,515,330 persons it is found that the total Birth-rate computes to 33·56 per thousand. The European or White population is estimated at 581,000; the European Birth-rate at 31·78.

* Of this number 184 were born in the late South African Republic and Orange Free State.
(*a*) Excluding 1 case "At Sea."

The 1906 rate for Queensland was 26·31 ; New South Wales, 27·12 ; Victoria, 25·20 ; Western Australia, 30·01 ; and for New Zealand, 27·08.

Deaths, 1907.—The total number registered to 31st December, 1907, amounts to (*b*) 35,437, composed of the following items, viz. :—European or White Males 3,450 and 2,785 Females ; Fingo, Kaffir and Bechuana, 9,618 Males and 8,324 Females ; Mixed and Other, 5,577 and 5,683. In the Colony Proper, *i.e. excluding* Bechuanaland and the Native Territories, there were 28,128 deaths, 3,293 being of European Males, 2,679 of European Females, 11,494 of "All Other" Males and 10,662 Females. Excluding "At Sea" cases there were 14,928 deaths in Urban and 20,509 in Rural Areas ; in the Colony Proper the division is 14,504 Urban and 13,624 Rural. Dealing only with the Colony Proper we find that as regards Europeans or Whites the Urban deaths numbered 2,066 for Males and 1,615 for Females ; and the Rural 1,227 and 1,064 respectively, the corresponding figures for "Other than Europeans" being 5,753 Urban Males, 5,070 Urban Females ; 5,741 Rural Males and 5,592 Rural Females. The Colony Proper population is put down at 1,515,330 ; the Death-rate works out to 18·56 per thousand. With a European population of 581,000 the European rate for 1907 is 10·28 per thousand.

For Victoria the 1906 rate was 12·45 ; Queensland, 9·56 ; New South Wales, 9·92 ; Western Australia, 11·87 ; and New Zealand, 9·31.

Births and Deaths. Thirteen Years.—As events of the earlier years were reported, the previously printed figures for those years were completed by the addition of the newly registered occurrences. The accompanying abstract, therefore, is as full as it can be made to the 31st December, 1907, when the last posting was made. Since January, 1905, the events have been tabulated according to date of registration instead of date of occurrence as hitherto ; no adjustment after 1904 of earlier events will therefore be necessary in the future.

Births and Deaths—Summary.—On pages 38 and 39 will be found some interesting Summary Tables in reference to Births and Deaths. From these it appears that in the Colony Proper for every 100 Females born during 1907 there were, amongst Europeans, 106·13 Male Births : Fingo, Kafir and Bechuana, 101·83 ; Hottentot, Mixed and Other, 103·07 ; All Races, 103·83. Or, reversing the comparison, for every 100 Males born there were 94·22 European, 98·20 Fingo, Kafir and Bechuana, and 97·02 Hottentot Mixed and Other Female Births, giving 96·31 for All Races.

Of the Births registered in the Colony Proper during the year, 36·70 of the Males and 35·90 of the Females were of European descent.

In regard to the Illegitimate Birth Rate among Europeans, an interesting comparison is instituted between the Colony Proper and the Australian Colonies. Taking the figures for 1906—no later information being available as regards the Australian Colonies—the percentage of Illegitimate European Births to total European Births in the Colony Proper was 2·44 (2·57 in 1907) ; in South Australia, 4·00 ; Western Australia, 4·78 ; Victoria, 5·58 ; Tasmania, 5·78 ; New South Wales, 7·04 ; and Queensland, 7·68.

993 Still Births were reported as having occurred in the Urban Areas of the Cape Colony during 1907, the figures for 1906 and 1905 being 922 and 1,013 respectively.

Of the Deaths registered in the Colony Proper in 1907, 22·27 of the Males and 20·08 of the Females were Europeans. It is curious to note that among the Native Races there is less objection to registering Deaths than Births.

As regards Certification, in the Colony Proper in 2,519 out of the 3,447 (73·07 per cent.) cases of Deaths of Europeans Over Five Years of Age the causes of death were certified by medical practitioners, and in 1,545 out of 2,525 (61·19 per cent.) Europeans Under Five ; for Other than European or White the corresponding figures are 4,565 out of 10,563 (43·21 per cent.) and 4,536 out of 11,593 (39·12 per cent.).

It should be noted that in the Rural Areas of the Colony the production of a Medical Certificate of the cause of death is optional.

(*b*) Excluding 54 Cases "At Sea."

* The Registration of Births and Deaths amongst the Natives in these Territories is imperfect.

Accidents.—The number of Deaths due to accident or negligence in the Urban Ar[illegible] of the Colony proper during the year was 313, to which burns and scalds contributed 71 victims, while [illegible] crushed, 34 run over, 25 drowned, 21 suffocated, and 25 died as the result of falls.

Suicide.—Six White and 26 Coloured Females committed suicide in 1907, an[illegible] 63 White and 27 Coloured Males. The most common method of self-destruction was by hanging, the [illegible]mber being 50; 32 persons used firearms, 16 took poison, 17 cut their throats, 4 perished by drowning, and [illegible] perished otherwise.

Revenue.—The fees collected during the year by the Head Office and by Deputy Registrars in connection with applications for Birth and Death Certificates and for alteration or assignment of Christian Names of Children whose births had been registered, amounted in all to £437 4s. Marriage Certificates—issued by the Under Colonial Secretary—and Searches for Records of Marriages produced £73 15s.

The fee for alteration or assignment of a child's christian name is 2/6; for a search 1/- for each year or part of a year; for a Certificate of Birth or Death, 5/-, all payable in revenue stamps. If a certificate is *authenticated* by the Under Colonial Secretary, that officer charges a fee of 15/- in addition. It should be noted that the Bank of England insists upon authentications.

CAPE GOVERNMENT RAILWAYS.—DESCRIPTIVE ARTICLE.

(Courteously supplied by the General Manager of Railways.)

The railways of the Cape Colony were originally commenced by private enterprise at Cape Town, and when, in 1873, the lines were taken over by the Government, only 63 miles were open. New Construction was then undertaken, in the shape of three separate systems starting from the principal seaports of the Colony, viz. : Cape Town, Port Elizabeth and East London.

In 1885, 1 599 miles had been opened for traffic, and for a period of some three years there was a suspension of further work, though the necessity of making progress towards the establishing of through communication within the Colony, and the securing of the trade of the inland States to the North of the Colony was constantly kept in view.

Consequently, on the discovery of the Gold Fields in the Transvaal, abnormal development in railway construction ensued, and the same has been observable in respect to the rapid extension of the railways in Rhodesia.

In December, 1907, the Cape Government Railways consisted of 3,254 miles of line, divided into three systems, known as Western, Midland and Eastern.

1. The WESTERN SYSTEM, starting from Cape Town, extends to Vryburg, a distance of 774 miles.

On the Western Main Line there are alternative routes between Bellville and Mulder's Vlei, one of which (the branch, 26 miles in length) serves the Stellenbosch district.

The following branch lines form part of the Western System :—

Salt River to Wynberg, and Simon's Town (20 miles), serving the populous suburbs of Cape Town and watering places in the vicinity.

Eerste River (on the Stellenbosch line) to Somerset West, Van der Stel, Sir Lowry's Pass and Caledon (66 miles). At Van der Stel on this line there is a branch line of 2½ miles in length, to Somerset Strand; this is a guaranteed line, the Municipality of Somerset West Strand having undertaken to bear any loss on working, interest on capital, etc., for a period of ten years from the date of opening of the line, namely, the 16th December, 1905.

Kraaifontein *via* Malmesbury and Moorreesburg to Eende Kuil (109½ miles). From Kalabas Kraal on Kraaifontein–Malmesbury section there is a 2 ft. gauge line to Hopefield, *via* Darling, a distance of 47 miles. These two branches serve very important grain-producing centres.

Paarl, *via* Simondium, to French Hoek a distance of 17 miles. This branch runs through a very fertile district.

Hutchinson, *via* Victoria West to Carnarvon (86 miles).

De Aar, (the junction with the Midland System) to Prieska *via* Britstown (112 miles).

From Beaconsfield a line, which was built by the Inter-Colonial Council, under convention with the Cape Government and which was opened for traffic on the 8th April, 1908, connects the main line of the Cape Government Railways with the Central South African Railways Main Line at Hamilton, 2 miles south of Bloemfontein Station. The construction of the portion of the line within the Cape Colony (about 4¼ miles) was authorized by Parliament under Act 34 of 1906. The distance from Beaconsfield to Hamilton is 100 miles.

At Fourteen Streams the new trunk line to Johannesburg *via* Klerksdorp, leaves the main line. The section of line connecting Fourteen Streams with Klerksdorp, which is 144 miles in length, was built by the Transvaal Government under Convention with the Cape, the construction of the line from Fourteen Streams to the Cape Border, a distance of about 4 miles, being authorized by Act 29 of 1904.

The Sea Point Railway, 3½ miles in length, runs from Monument Station, at the foot of Adderley Street, Cape Town, to Sea Point. The Government is guaranteed by the Municipal Council of Green and Sea Point against any loss in working the line, interest on capital, etc., for a period of ten years from the date of opening, namely, the 1st December, 1905.

A short line, 3 miles in length, was built by the Milnerton Estates Company from Craig's Crossing—which is situated between Woodstock and Salt River Stations—to the Milnerton Estates. This line is worked by the Government on behalf of the Company.

The Cape Flats and Suburban Railway Syndicate own a short line of railway from Maitland, where it joins the main line of the Cape Government Railways, to Ottery Road on the Cape Flats, a distance of 7 miles. This line was opened for traffic on the 1st February, 1904, and until the 31st May, 1904, was worked by the Cape Government Railways on behalf of the Syndicate : from the latter date, the Government has worked the line at its own risk. Parliament authorized, by Act 14 of 1904, the extension of the Cape Flats line to Diep River, from the present terminus at Ottery Road, but this work had not been commenced in 1906, when by Act 34, the Government obtained powers to purchase, equip, maintain and work the line from Maitland to Ottery Road, and to construct, equip, maintain and work an extension thereof to Diep River, a distance of about 2½ miles. Work has not yet been commenced on the extension (April, 1908).

The New Cape Central Railway, a private line, 205 miles long, constructed under Government subsidies, runs from Worcester through Robertson, Swellendam and Riversdale, to Fore Bay (4¾ miles from Mossel Bay) where it joins the Government line from Mossel Bay to George. Trains run through to Mossel Bay and George, the section of the Government line between Mossel Bay and George, 33 miles in length, being worked by the New Cape Central Company.

Parliament authorized, under Acts 38 of 1902 and 34 of 1906, the construction of the following lines, further to open up the Western Districts of the Colony :—

Act No. 38 of 1902.

(1) A 2 feet gauge line from Hopefield towards Vredenburg, for a distance of 14 miles, at a cost of £25,000.

(2) A 2 feet gauge line from Ceres Road Station to Ceres, 10¼ miles, at a cost of £44,167.

Act No. 34 of 1906.

(3) A 3′ 6″ gauge line from Bellville to Durbanville, 7¼ miles, at a cost of £26,000, the Municipal Council of Durbanville guaranteeing to the Government repayment of any loss on working, interest on capital, etc., for ten years from the date of opening the line for traffic, the first adjustment to be made within three years from the date of opening, and adjustments to be made annually thereafter until the loss for the 10 years has been fully paid up.

(4) A 2 feet gauge light agricultural line of about 40 miles in length, from Hopefield to or near Hoetjes Bay, *via* the vicinity of Lange Riet Vlei and the vicinity of Vredenburg, at a cost of £62,640 plus the sum of £25,000 provided under Act 38 of 1902—vide No. 1—for line towards Vredenburg, which is to be available towards the cost of constructing the Hoetjes Bay Line.

(5) A 3′ 6″ gauge line from Eende Kuil to a point in the vicinity of Graaf Water or Vogelfontein, 53½ miles, at a cost not exceeding £231,773.

(6) The construction of the Ceres Road-Ceres Railway, 10¾ miles (referred to in No. 2) on a 3′ 6″ gauge, at a cost of £60,873, plus the sum of £44,167 already authorized under Act 38 of 1902 for the 2 feet gauge line, the total amount now authorized being £105,040. The Divisional Council of Ceres has agreed to indemnify the Government against loss on working, together with interest, to an annual amount not exceeding £1,000 per annum, for a period of 10 years, after the expiration of the first year of working.

(7) A 2 feet gauge light agricultural line from Belmont to Douglas, 55 miles, at a cost of £100,870.

Construction work on the lines before-mentioned has not yet been commenced.

The Cape Government Railways end at Vryburg, where the lines of the Rhodesia Railways, Limited, commence.

There is, however, a line belonging to the Cape Government which runs from Mafeking to Buurman's Drift, a distance of 9¼ miles. This line was originally built by the Mafeking Municipality. Provision was made under Act 44 of 1905 for £84,150 for the construction of a line of railway from Mafeking to Ottoshoop in the Transvaal, a distance of 22 miles, in order to cater for the trade of the Western Transvaal. Part of the country to be traversed by this line is already served by the line to Buurman's Drift, and Act 34 of 1906 authorized the deduction from the amount provided for the construction of Mafeking-Ottoshoop line of a sum £9,184 for the purchase of the line to Buurman's Drift. Negotiations with the Inter-Colonial Council have so far not reached a successful termination concerning the construction of the proposed line to Ottoshoop.

The length of line between Vryburg and Bulawayo (Bulawayo exclusive)—588 miles—is worked by the Cape Government Railway Department for the owning Company at actual cost, and from Bulawayo northwards the lines are worked by the Beira and Mashonaland Railway.

Railway Extension in Rhodesia has been progressing rapidly within the last few years; from Bulawayo, there is now through communication to West Nicholson, Gwelo, Salisbury, Ayrshire, El Dorado, Beira, the Victoria Falls (280 miles from Bulawayo, and 1,642 miles from Cape Town), and Brokenhill, 375 miles beyond the Falls.

2. The MIDLAND SYSTEM starts from Port Elizabeth and joins the Western System at De Aar (339 miles). From Naauwpoort Junction (270 miles) the trunk line to the Orange River Colony and Transvaal is continued, *via* Norval's Pont, which is 328 miles from Port Elizabeth.

The lines through the Orange River Colony (then Orange Free State) were built by the Cape Government Railways under Convention with the Orange Free State, in terms of which the Cape constructed and worked the lines and the Orange Free State drew a moiety of the profits. On the 1st January, 1897, the Orange Free State Government took over these lines from the Cape and established its own Railway Department for the working of the lines in that territory.

In addition to the trunk line of the Midland System, there is a line branching off at Zwartkops, which touches Uitenhage and Graaff-Reinet, and rejoins the Main line at Rosmead Junction, after running a distance of 276 miles. This line passes through agricultural and fruit-growing country.

From Klipplaat (123 miles from Port Elizabeth), on the Uitenhage-Graaff-Reinet line, there is a branch to Oudtshoorn of 154 miles, through some of the most productive districts in the Colony.

Another branch line belonging to the Midland System is that from Alicedale to Grahamstown (35 miles). This line is continued to Port Alfred (a seaside resort for the surrounding districts), by a Railway owned by the Kowie Railway Company, Limited. The private branch is 43 miles in length, and was constructed under subsidy from the Government.

From Cookhouse Junction on the Midland Main Line, there is a branch line, in a westerly direction to Somerset East (19½ miles), and in an easterly direction there is a junction line, via Adelaide, Fort Beaufort, Alice and King William's Town, which connects with and forms part of the Eastern System (No. 3). The length of the line from Cookhouse to King William's Town is 132½ miles, and the total distance from Port Elizabeth to East London, *via* this route, is 301 miles.

There is another junction line—83 miles long—with the Eastern System (No. 3) from Rosmead Junction (243 miles from Port Elizabeth), to Stormberg Junction (326 miles from Port Elizabeth and 221 from East London); this line forms part of the Midland System. From a point—Bamboo Junction—on this line, there is a branch about 17 miles in length which serves the Cape Collieries and other Companies' Coal Mines with Railway communication. By Act 38 of 1902, the Government authorized the expenditure of the sum of £30,000 for the purpose of extending this line from its present terminus to Romansfontein, a distance of eight miles, but, up to the present (April, 1908), construction work on this branch has not been commenced.

From Colesberg Junction on the Naauwpoort-Norval's Pont section there is a short branch of about two miles in length to Colesberg town.

There is a narrow gauge (2 feet) line from Port Elizabeth to Avontuur, a distance of 177 miles, and from Valley Junction (2¾ miles from Port Elizabeth) on this line there is a short branch of the same gauge to Walmer, a distance of 3½ miles. The Walmer Municipality has guaranteed repayment of any loss on working on the Walmer Branch, interest on capital, etc., for a period of 10 years from the date of the opening of the line, namely, the 15th December, 1906.

There is another line which forms part of the Midland System, but which is isolated from any other Government line, namely, the line from the Seaport of Mossel Bay, lying between Cape Town and Port Elizabeth, to George, a distance of 33 miles. This line connects at Fore Bay (4¾ miles from Mossel Bay) with the New Cape Central Company's line to Worcester, on the Western System, and it is, at present, being worked by the New Cape Central Company on behalf of the Government.

There is a private line owned and worked by the South Western Railway Company which runs from Knysna—a seaport between Mossel Bay and Port Elizabeth—for a distance of 19¼ miles in the direction of Avontuur to a place called Templeman. This line, which is isolated from any Government or other line, is of a 2 feet gauge, and was built under Government subsidy.

Parliament, under Act 34 of 1906, authorized the construction of the following branch lines on the Midland System :—

A 2 feet gauge light agricultural line from Barkly Bridge, *via* Alexandria, to a point on the Kowie Line between Roundhill and Port Alfred (90 miles), at a cost of £313,377.

A 3 feet 6 inch gauge line from Schoombie to Maraisburg, 28¼ miles, at a cost of £100,000.

A 3 feet 6 inch gauge line from George to Oudtshoorn, 46¾ miles, at a cost of £372,971.

The line from Barkly Bridge is being proceeded with as far as Alexandria, and construction work is now in progress. Work has not yet been commenced on the Schoombie-Maraisburg line, and although construction has not yet been started between George and Oudtshoorn, Survey work is going on.

3. The EASTERN SYSTEM, starting from East London, was originally constructed to Aliwal North (280 miles), lying on the south bank of the Orange River, the boundary between the Cape Colony and the Orange River Colony.

In 1891 a junction with the trunk lines through the Orange Free State towards the Transvaal was effected by a connecting line from a point 33 miles south of Aliwal North (Albert Junction) to Springfontein, in the Orange Free State (314 miles from East London).

As before stated, through railway communication exists between the Eastern, Midland and Western districts of the Colony.

The following branch lines form part of the Eastern System:—

Blaney Junction, *via* King William's Town, Alice, Fort Beaufort and Adelaide to Cookhouse, on the Midland System, 143 miles.

Amabele Junction to Butterworth, 77 miles.

Bowker's Park to Tarkastad, 32½ miles.

Sterkstroom Junction, *via* Indwe to Maclear, 171½ miles.

Aliwal North to Lady Grey, 39¾ miles.

Per Act 34 of 1906, Parliament authorized the construction of the following lines, which will further open up the Eastern Districts of the Colony:—

A 3 feet 6 inch gauge line from Butterworth to Idutywa, 26 miles, at a cost of £117,842.

A 3 feet 6 inch gauge line from Riverside to Llewellyn, 27 miles, at a cost of £256,000.

A 2 feet gauge light agricultural line, on which passengers will be carried only at their own risk, from Cathcart to a point in the vicinity of Fairford or Chilton, 49 miles, at a cost of £138,229.

A 2 feet gauge light agricultural line, on which passengers will be carried only at their own risk, Queenstown to Whittlesea, 22½ miles, at a cost of £55,000.

A 3 feet 6 inch gauge line, Lady Grey to Gairtney, 21 miles, at a cost of £197,515.

Under Act 34 of 1906, Parliament also authorized the Government to enter into an agreement with the Natal Government, to provide for the construction and working, by the Natal Government, of a line of railway from Riverside to the Natal Border.

The lines from Butterworth to Idutywa, from Riverside to Llewellyn and from the Natal line to Riverside, are the only ones that are being proceeded with at present (April, 1908).

By Act 48 of 1905, Parliament authorized the construction, by a Company styled the "St. John's-Kokstad Railway Company, Limited," of a line of railway of the standard gauge (3 feet 6 inches) from a point adjacent to the Umzimvubu River, at the Port of St. John's, to Kokstad. This line will be about 142 miles in length, and will be subsidized by the Government, the subsidy authorized being at the rate of £1,500 per mile.

Act 49 of 1905 authorized the construction, by a Company styled the "St. John's—Umtata Railway Company Ltd.," of a line of railway, 76 miles in length, from a point upon the proposed St. John's-Kokstad Railway (authorized by Act 48 of 1905) at Isenuka, to Umtata. The line authorized is of the standard gauge, and a subsidy will be paid by the Government in respect thereof, calculated at the rate of £1,500 per mile. These two lines, when completed, will open up the native districts of Pondoland and the Transkei.

Construction work on these two lines has not yet been commenced, although the first sod was cut on the 8th December, 1906. It is understood that Bills will be introduced during the ensuing Session of Parliament with a view to amending Acts 48 and 49 of 1905, and extending the time allowed for the commencement of contruction work.

On the 31st December, 1907, the mileage of the Cape Government Railways open for traffic was 3,254.

The gross receipts for the twelve months ended 31st December, 1907, were £3,469,705, compared with £3,772,770 for the year 1906; the working expenses were £2,572,634, compared with £2,728,849 for the year 1906, resulting in a return of £2 16s. 11d. per cent. on Capital expended as compared with £3 8s. 2d. per cent. for the previous year.

Through railway communication exists between all the Government lines of the Cape Colony and Bulawayo, Wankie, Victoria Falls, Brokenhill, Ayrshire and Salisbury in Rhodesia; Beira in Portuguese East Africa; Bloemfontein, Johannesburg, Pretoria, and Petersburg on the Central South African Railways; Durban and other important centres in Natal; and Delagoa Bay in the Portuguese territory.

The existing Colonial lines, in common with all South African Lines—save a few developing branch and private lines—are constructed on a gauge of 3 feet 6 inches. The lines are well and substantially laid, and both the rate of speed and the general comfort and equipment are admittedly creditable. Especial attention is devoted to the peculiar requirements of long journeys and the variations of climate experienced; corridor saloons, carefully constructed with a view to comfort and stability are provided on through trains and these are fitted with lavatory accommodation and electric light, while the provision of bedding at reasonable charges adds materially to the comfort of passengers.

The Department has accredited representatives at the Cape Town Docks, for the purpose of furnishing arrivals by the Mail Steamer with any information they may desire in regard to Railway matters.

Dining cars are attached to all through trains, to and from Cape Town, thus obviating the necessity for lengthened stops at Stations to enable passengers to partake of meals.

The character of the country traversed by the Cape Government Railways near the coast is greatly diversified on each System, although, when the higher altitudes are reached the general characteristics are usually similar. On the Western and Midland Systems the scenery is perhaps the more imposing, while on the former line the vast stretches of the dry Karoo region, apparently barren and parched throughout a great portion of the year, are not without a certain charm of their own.

After rains, the great latent fertility of the Karoo region is apparent, for within a marvellously short space of time, the whole face of the country becomes carpeted with flowers of brilliant hue which, with the bright crispness of the atmosphere, adds greatly to the enjoyment of the traveller.

The Eastern line through much of its length traverses an open grassy country, presenting many interesting features.

The Government issues Tariff Books periodically, containing full information on all matters likely to be of interest or service to the public, such as fares, rates, distances, etc.

ACCUMULATION (pp. 127-132.)

Banks.—The following remarks merely apply to the results for the Colony. Legal tender notes in circulation on 31st December, 1907, amounted to £913,820, and other notes to £6,201—the former being an item introduced since 1st January, 1892. Deposits fixed stood at £5,303,651, and floating at £6,064,421. Under the head of assets, £2,645,041 was returned as the amount of coin in the bank coffers at the end of last year. Overdrawn accounts (unsecured) are returned at £239,002. Including £1,841,836, bills received for collection, and a corresponding amount on the other side of the statement, the sum total of assets and also of liabilities for the quarter ended 31st December, 1907, was £18,724,383.

In 1881 there were 11 banks, now there are six.

P.O. Savings Bank had on 30th June, 1907, 364 branches, with 168,170 deposits of £1,515,422. Value of Property. The total value of fixed property in the Colony proper, including property in towns as assessed for Divisional Council purposes, was £92,250,345, while the value of properties in Municipalities was £59,253,544 according to the Municipal rating. In two cases the Divisional Council rate is as high as 1½d. in the £, and in one case 3d.; but considerable variations are noticeable in Municipal rates. As regards the Divisional Council assessments, the valuations are given separately for Municipal, Village Board and Rural Areas, being respectively £50,767,895, £1,757,507, and £39,724,943. It will be noticed, therefore, that there is a difference of £8,485,649 (compared with £8,555,586 in the previous year and £6,314,045 in the year before that) between the Municipal and Divisional valuation of properties in Municipalities.

There were also 382 Bonds for £282,884, connected with insolvent estates, cancelled. *Insolvencies.*—One hundred and seventy-five Estates were compulsorily sequestrated in 1907, but it has been found impracticable to state the full amount of the Assets and Liabilities. Confining attention to the chief points—*convictions and transmissions to Superior Courts*—the following figures in respect thereto are presented for the different classes of crime, viz.:—Offences against person, 6,950 and 480; Person and Property, 648 and 326; Property, 6,500 and 304; Good Order, 31,484 and 3; Carrying out laws, 830 and 32; Forgery, Currency and Revenue Offences, 505 and 15; Public Welfare, 12,045 and 9. Drunkenness.—A table has been prepared showing, by Districts, the number of Persons, European and Other than European, Accused, and the number of persons Convicted of Drunkenness during the year, with comparative figures for two preceding years (p. 153).

From this it appears that in the Colony Proper 3,346 European, and 10,122 Other than European persons —13,468 in all—were accused of drunkenness in 1907, 12,471 being convicted. In the Native Territories accusations were brought against 79 Europeans and 53 Others—total, 132—resulting in 129 convictions.

RELIGION AND EDUCATION (pp. 164-174.)

Ecclesiastical.—The Return relating to the Receipts and Payments in connection with Churches is condensed from the statement published in the Census volume, and therein fully reported on (see pp. 532-9 of G. 19/1905). During the Census year there were 2,403 places of Worship (capable of holding 490,432 persons) whereat the average attendance was 256,277, and the number of communicants 264,748.

All the Churches combined had in 1903 an income of £627,080 and an expenditure of £617,435.

At 2,108 Sunday Schools the attendance was put at 96,189. In all the various congregations included 713,329 individuals, of whom 341,988 were White.

On page 170 will be found an interesting Return giving particulars in regard to the Religious Denominations in operation in the Colony in 1907. This statement is, unfortunately, incomplete, owing to the failure of a considerable number of Ministers to furnish the information asked for.

Education.—Besides aiding five Colleges attended by 700 students, the Education Department made grants in 1906-1907 to 1,018 Public Schools, 704 Mission Schools, 4 District Boarding Schools, 773 Industrial Training

Schools, 19 Special, 934 Private Farm Schools, 273 "Poor Schools," and 25 Evening Schools, and the total expenditure on the 3,755 Institutions and the office staff, &c., amounted to £537,836. The Government Expenditure in 1906–7 per pupil in average attendance was £2 15s. 11d. 3,706 schools with 178,503 children on the books, and 167,145 actually present were inspected during the year 1906–7, with the result that 1,941 were registered above Standard, 1,501 under VII, 4,405 under VI, 7,017 under V, 12,091 under IV, 16,479, under III, 20,968 under II, 22,295 under I, and 78,055 below any Standard. It is interesting to note that just after the passing of the Education Act of 1866 there were 392 Schools, with 32,875 scholars; in 1875, 641, with 54,167; in 1884–5, 994, with 76,018. *The University*,—905 undergraduates having matriculated in 1907, the roll of undergraduates stands now at 8,201, while 1,686 persons have passed (171 in 1907) the Intermediate Examination in Arts, and 969 have taken direct degrees (62 in 1907). 889 Certificates for Law and Jurisprudence have been issued (not including 299 to Transvaal, O.R.C. and Natal), and 510 for Land Surveying. 737 persons have passed the Civil Service Law (not including 130 from the Transvaal and O.R.C.), 13 the C. Elementary School Examinations were held from 1875 to 1906, but were discontinued from the latter date; the total number of successful candidates was 23,339. 8,865 Music Certificates have been granted in fourteen years, besides 219 to music teachers.

School Boards.—Under the School Board Act No. 35 of 1905, the Colony proper has been divided into 104 School Districts, and in the Native Territories 7 School Districts have been constituted, each District having been placed under the control of a School Board.

There were 158 Public Libraries, with a total of 564,831 volumes (exclusive of periodicals) on their shelves, 35,174 having been added during the year; the number of subscribers was 10,382, and the average number of visitors per day 4,063.

LIVE-STOCK AND AGRICULTURE (pp. 175—179).

It is matter for regret that, with the exception of the Returns of Sheep and Goats published on pages 175–176—compiled from Returns published by the Chief Inspector of Sheep—no figures later than those of the Census of 1904 are available in regard to Agriculture and Livestock. For a number of years prior to 1900 a sum of £3,000 was annually voted for the purpose of obtaining the necessary statistics—the collection of the figures being effected principally through the agency of the Cape Police and Field-cornets, special arrangements being made in a few Districts where this method was impracticable. After the outbreak of hostilities in 1899, however, the collection of Agricultural Statistics was abandoned, and, with the exception of the general Census of 1904, nothing further in this direction had up to the present year (1908), been attempted. The compilation of statistics dealing with Livestock and Agriculture has now been taken in hand by the Director of Agriculture, but the figures are unfortunately not yet available for publication.

Livestock.—There were, on the 31st March, 1904, in the Colony, 255,060 horses, 164,903 mules and asses, 60,907 bulls, 540,310 milch cows, 533,982 oxen, 819,191 other cattle; 11,818,829 sheep, 7,162,463 goats, 385,945 pigs, and 358,370 ostriches. (For further particulars see Census Report, 1904—G. 19 of 1905).

In 1907 woolled sheep numbered 10,761,513, and cross bred 6,391,500; while the figures for Angora and other goats, respectively, were 3,528,717 and 5,170,697. (See Returns on pages 175 and 176).

Agricultural and Pastoral Products, Census 1904.—The quantity of wheat produced in the Colony during the year ended 31st March, 1904, was 567,266 muids (1 muid=3 bushels); of oats, 809,002; barley, 306,821; mealies, 1,131,708; Kafir corn, 325,196; rye, 93,808; and potatoes, 627,644 muids (*not* including sweet potatoes, 140,192 muids).

Of oathay 67,742,477 bundles had been reaped, and 5,309,389 lbs. of tobacco were produced during the same period. The quantity of butter made was 553,686 lbs. salt and 3,051,323 lbs. fresh. The clip of wool is returned as 42,244,731 lbs., and mohair 8,956,629 lbs. The ostrich feathers plucked in the Colony totalled to 389,051 lbs.

Wine and Brandy, Census, 1904.—The quantity of wine and brandy or spirits made was:—red wine, 1,460,721 gallons; white wine, 4,225,950 gallons; and brandy or spirits, 1,534,069 gallons. In 1906, according to returns furnished by the Excise Department, 1,384,703, and in 1907, 1,788,317 gallons of brandy or spirits were produced (see page 97). No later details are available with regard to wine.

Agricultural and Livestock Returns, 1891–1904.—Comparative Tables of Agricultural and Livestock Returns 1891-1904 for the Colony Proper, *i.e.*, the Colony, excluding the Native Territories and Bechuanaland, are given on page 179.

OBITUARY.

It is with sincere regret that I have to record the death of Mr. Alfred John Brinton, which occurred on the 9th February last. The deceased gentleman, who was held in high esteem by all with whom he came in contact, joined the Colonial Secretary's Department in 1884, and, after passing through the various grades, was appointed Registrar-General of Statistics on the 1st June, 1905, which office he held at the time of his death.

ACKNOWLEDGMENTS.

The co-operation of the Officials connected with Local Government Institutions, of Ministers of Religion, of Commercial men, and of many private individuals, is gratefully acknowledged.

† The figures in these columns as published for the years 1904-5-6, have been amended, the expenditure on account of Redemption of Rolling Stock has been eliminated for the years 1906 and 1907, and for the years 1904 and 1905 only the amounts actually paid to the Treasurer have been included.

‡ Including £58,224 Repayment of Cost of Damage occasioned by War. This really should have gone in diminution of Expenditure, but as it pertains to a previous year, Audit Rules make it obligatory to treat it as Revenue.

MEMO.—*On Acreage disposed of and undisposed of.*

As no general Survey of the Colony has been made, it is impossible to state exactly the area undisposed of. From the latest calculations that have been made, however, the area of the Colony, including Griqualand East and West, Tembuland, Transkei, Port St. John's, Walfish Bay, Pondoland, and British Bechuanaland is estimated at 83,805,012 Morgen (177,376,660 Acres). The quantity of Land disposed of up to the end of 1907, being about 63,198,897 Morgen (133,807,963 Acres), there appear to remain undisposed of 20,606,115 Morgen (43,568,697 Acres), in which are included some Loan Places still unconverted, Missionary Institutions, Native Reserves and Locations, Outspans, Commonages, and Crown Lands, held under license in terms of Act No. 40 of 1895. This area is *exclusive* of that part of the Railway Land Grant in British Bechuanaland which was undisposed of on the 31st December, 1907, of about 955,640 Morgen or 2,022,650 Acres.

NOTE.—One Morgen=2·1165402 Acres.

GENERAL NOTE explanatory of system upon which Special J. P. and R. M. Crime Returns are compiled:—

1. An offender is on the preferment of *every* fresh charge during the period to which the statement relates, treated therein, on *each* occasion, as a new misdemeanant brought up for first time, and in the event of being accused simultaneously of the commission of two or more distinct species of crime is separately entered for each.
2. It should be observed that the number of *Cases* tried is not necessarily the same as that of *Persons* accused.
3. When a preliminary examination has been held, and the case, after submission to the Attorney-General, Solicitor-General, or Crown Prosecutor, has been by him remitted for further action to be taken thereon by R. M., the said examination is treated as a prosecution.
4. To *each* species of crime *separately* has been assigned a complete entry in all the columns.
5. Entries regarding persons awaiting trial before *Circuit Courts* are recorded in the column placed next after the "Conviction" column

SEPARATE PERSONS—R.M. COURTS.

NOTES I. **Raw Gold.**—"Raw" Gold is described by the Transvaal Chamber of Mines as follows:—"Raw Gold is bullion as recovered from the ore by amalgamation, cyaniding, or other process, before it has been refined. It contains anything up to say 950 parts of pure gold to the thousand parts.

II.—**Gold Slag or Concentrates.**—Gold Slag or Concentrates is described by the Transvaal Chamber of Mines as follows:—*Concentrates* may be defined as the richer, heavier and more pyritic portion of the crushed auriferous ore from which it has been mechanically separated during treatment. *Gold Slag* may be defined as the glassy substance obtained by smelting rich auriferous products with fluxes to cause a separation of the gold bullion from the impurities present. Slag thus obtained usually contains small quantities of gold, and is subsequently re-treated to recover this."

* Exclusive of Merchandise exported from Feira in North-Western Rhodesia, valued at £50.
